

Help Prepare the Future Workforce with Kishwaukee College

Kish College is helping prepare the workforce of tomorrow and we need your help. Area employers are needed to provide real world work experience to students. Employers have the opportunity to connect with Kish students and provide on-the-job training in their program of study.

Students earn while they learn and Kish will help cover their wages — reimbursing employers up to 50% for earnings paid to student workers.

To be eligible, an employer must:

- Be located in Illinois
- Pay the student at least \$14 per hour
- Nature of work must relate to student's academic program

For more information about the Illinois Cooperative Work Study Program, contact:
