Kris,

Due to Ford's constraints on material and part availability they are not scheduling your orders to build yet. We can not meet the deadline. We can try our best to find you a pre-owned or altered order. I just put in another order for a customer and it's status went straight to "Material Hold". Please let me know how you would like to proceed.

Thank you,
Dan Johnson

Dan-

Would you be able to send a email, stating that you are going to have to cancel the order due to not meeting the deadline because of Ford?
