

Transfer Pathway Information from Kishwaukee College to University of Illinois Springfield

This document is to be used as a quick reference guide only. It is intended to outline courses at the lower division level that are transferable from a select Community College to UIS. The first section of the packet is major-by-major lower division transferable courses, and the second section is ALL transferable courses from the Community College to UIS sorted by UIS program code alphabetically. For most up-to-date articulations, please see Transferology linked below.

To be considered for admission to UIS as a transfer student, an applicant must have attempted at least 24 transferable semester hours and have a cumulative grade point average of 2.0 on a 4.0 scale from a regionally accredited institution. Remedial and developmental course work, test-based and most military credit, and credit attempted or earned during high school/GED completion does not count toward the 24-hour minimum. Applications are accepted on a rolling basis, and new students may begin classes in any semester.

Admissible applicants who have earned an Associate of Arts, Associate of Arts and Science, or Associate of Arts in Teaching from a regionally accredited Illinois Community College will be admitted to UIS as a junior with general education requirements met. An applicant who has earned an Associate in Science from an Illinois regionally accredited college or university (as of Fall 2016) is admissible as a junior but may not have satisfied the General Education requirements for UIS. Students who have earned an Associate of Science degree and believe they have met the requirements may submit a Student Petition with their Academic Advisor.

UIS participates in the Illinois Articulation Initiative (IAI), a statewide agreement designed to allow students to complete the IAI General Education Core Curriculum (IAI GECC), as well as credit earned in select majors, between participating institutions. To determine IAI GECC courses needed and available, use the course planning worksheet available at iTransfer.org. This information is also in each participating institution's catalog and with academic advisors.

Another statewide initiative designed to facilitate transfer within Illinois is a nationally available tool called Transferology[™]. Within Transferology[™] a student can identify courses that transfer between institutions, degree requirements selected courses satisfy, and browse different majors that institutions offer. Transferology[™] is free for students, parents, guardians, teachers, and advisors to create an account and use.

For information about transferring to UIS, please fill out the [request on UIS's website](#).

For transfer-related information, documentation, guides, etc. from UIS, please see the [Transfer Information and Requirements website](#).

Please direct any questions about this document or transferring to UIS to Allison Kling (Transfer Coordinator) in the Office of Admissions Processing at admprocessing@uis.edu or 217/206-6156.

For a list of all degree programs offered at UIS, please visit the [UIS catalog](#).
