Faculty Presentation Speech: It was my sincere pleasure to nominate Jenna Lyn Hansen for the Outstanding Massage Therapy Student Award. Jenna stood out since the first class as a motivated and engaged student. She is usually the first student to finish each week’s assignments and often within a couple hours of online modules opening. In the classroom and in online discussions Jenna is easy going and puts other students at ease. This is so important in a classroom setting such as Therapeutic Massage where trust and camaraderie are so important to the class dynamics.
